Concerning the last baby of Hannah Elias, which the birth certificate mays was born in April, only seven weeks ago, at the house at No. 434 Lenox avenue, much of interest came to light to-day.

The birth certificate, signed by Dr. Van Tine, says the child is white The mother is a negress.

When Mrs. Elias rented this house she did it through one of the many women with whom she was always surrounded, and the greatest secrecy attended the negotiations. Why the woman took the house when she had three finely furnished houses of her own, any one of which she might have eccupied, can only be explained on the theory that she desired to have the child which was born to her there brought into the world where no one but her intimates would know anything about it.

The owner of the house is John Oleson, a Swede, of No. 221 West One Hundred and Thirty-second street. Mr. Oleson told the story of leasing it to Mrs. Elias to an Evening World reporter to-day, as follows:

"Last September I saw an advertisement in a paper that a three-story house in Harlem was wanted and that price was no object, but that the place must be magnificently furnished or it would not do. The representative of the advertiser, I found, was W. W. Babcock, a real estate agent, and when I saw him he said that he would send his client to me. He gave me understand that price was no object, if the place was satisfactory, so when it came to making terms I fixed a good stiff figure, which was promptly

She seemed in a hurry to get in, for she said she would be around with her trunks the next day.

"Sure enough she came around the next day with a big alligator bag, I met her and she told me her sister would soon follow her with their serwants. Then I went away, and what happened after that I learned from the neighbors. The sister came all right. She came in an automobile and was heavily veiled. After that she always went out with a heavy veil on, and the curious neighbors could never get a look at her. She was partial to automobiles, but sometimes went out in a carriage.

"Her most constant visitor was an old man, who was always admitted as soon as he got to the top of the steps. His visits were usually anticipated. There was one other male visitor, and that was a young, good-looking man, who also seemed to be expected. The men were never in the house together. Their visits never clashed.

"These people took good care of the house. They put magnificent flowin the backyard, and they stored the cellar with coal and wood. They

Mr. Knapp was asked if he knew why the trunks taken away in his truck were marked "Long Branch."

"I understand," he said, "that last week Kato went to Long Branch or Asbury Park and rented a cottage for the season, paying the cash in advance. Some of the neighbors, hearing that a colored woman was coming. made a fuss about it, but I do not think that would have stopped them going. I think the baby is down there now."

STRIKE MEETING CALLED. Five Thousand Lehigh Coal Miners

Interested in Decision. TAMAQUA, Pa., June 3 .- A meeting

TAMAQUA, Pa., June 3.—A meeting of the three anthracite district boards has been called for Monday for the purpose of inaugurating a general strike of the 5,000 men employed by the Lehigh Coal and Navigation Company in the Panther Creek Valley.

The meeting will be held in Lansford. The miners by the Seventh District claim that the Lehigh Coal and Navigation Company has been discriminating against some of its union men. The company, however, contends that it has the right to employ or discharge whoever it pleases. On the other hand, the men claim that the recent decisions of the Conciliation Board are in effect that no company shall discriminate against a man who has not shown himself to be incompetent or negligent in the performance of his duty.
